Oct. 30, 1971

Mr. David C. Major
651 Whitebridge Road
Gillette, N. J.

Dear Mr. Major:

On Oct. 30, 1971 I inspected the site where the National Gypsum Co. is conducting a filling operation on your property known as Block 225 Lots 35A and 35A-1.

In addition to the asbestos waste, which is permitted under Fill Permit No 44 issued June 14, 1971, I found wood, cardboard, refuse and other trash being dumped.

I would like to caution you that unless this operation is properly policed the result could be revocation of your fill permit.

Please give this matter your prompt attention.

Very truly yours,
Rocco P. Giannotta
